Medium-Cap Corporate of the Year 2009

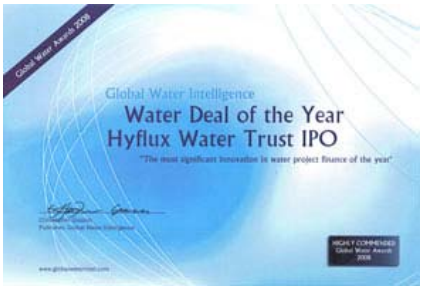
Hyflux was awarded the Medium-Cap Corporate of the Year, Singapore 2009 by Asiamoney in its annual Asia's Best-managed Companies' Awards. The awards were determined based on surveys with fund managers and analysts across the region, and recognised Asia's most successful companies in 2009 for traits such as clear business strategies, well-communicated business goals and opportunism.

Runner-up, Most Transparent Company Award 2009

Hyflux came in as the runner up for the Most Transparent Company Award in the Services / Utilities / Agriculture category at the 10th SIAS Investors' Choice Awards 2009. The Most Transparent Company Award is based on key criteria such as timeliness, substantiality and clarity of news releases, degree of media access, frequency of corporate results, availability of segmental information and clear communication channels. The Selection Committee selects the winners from nominations received from investment analysts, heads of research, fund managers and members of the mass media.

Winner, Most Transparent Company Award 2008

Hyflux won the “Most Transparent Company Award 2008” in the Services / Utilities / Agriculture Category. The company received nominations from analysts, fund managers, financial journalists and retail investors represented by SIAS.



Highly Commended Award, Water Deal of the Year 2008, Hyflux Water Trust IPO

Hyflux Water Trust, the flagship financial initiative of Hyflux, received this prestigious award at the Global Water Intelligence award ceremony in 2008. It was recognised as the most significant innovation in water project finance in that year.

Technology Innovation of the Year Award 2007, Desalination Technologies (Asia Pacific)

Hyflux was recognised for the capabilities of its proprietary Kristal® membrane technology, which has proven industrial and municipal applications in the treatment of aqua-based industrial waste streams, water purification, wastewater recycling and seawater desalination pre-treatment.

Technology Innovation of the Year Award 2007, Residential Water Treatment Equipment Markets (Southeast Asia)

Frost and Sullivan recognised Hyflux's success in producing an innovative lifestyle Aquavator known as "dragon-fly" that provides fresh drinking water from the air. The innovation set benchmarks in residential water treatment.

Winner, Water Company of the Year 2006

Hyflux won the highest honour at the Global Water Awards 2006 by clinching the Water Company of the Year. The award, given by Global Water Intelligence, United Kingdom, recognised the significant contributions of the company to the standing of the private water industry in 2005.

Distinction Award, Desalination Plant of the Year 2006

In recognition of the efficient manner in which it was operated, Hyflux's SingSpring Desalination Plant in Singapore received the Distinction Award for Desalination Plant of the Year at the Global Water Awards given by Global Water Intelligence, United Kingdom.

Category Winner, International Aquatech Innovation Awards 2006

Hyflux's hollow fibre ceramic membrane, InoCep®, was the water treatment/ point of use winner at the International Aquatech Innovation Awards 2006.

Winning amidst strong competition from Europe, North America and Asia, InoCep® impressed the international jury of experts for its originality, practicality (technical, economical, feasibility) and sustainability (environment, security, energy and efficiency).

Winner, Regional Growth 2006

Hyflux CEO, President and Managing Director, Olivia Lum, was accorded "Winner of Regional Growth" at the 11th Nikkei Asia Prize 2006 by Nihon Keizai Shimbun, Japan.

Forbes Asia's "Best Under a Billion" list 2006 & 2005

Hyflux was listed as Asia's top 200 small & mid size companies by Forbes Asia for two consecutive years in 2005 and 2006.

Forbes Asia's annual Best Under a Billion selections showcase the region's most dynamic publicly traded firms with sales under US$1 billion a year with track records of sustained growth and profitability.

Commendation Award, Water Project of the Year 2005 and Wastewater Project of the Year 2005

The Seletar NEWater plant and the Chestnut Avenue Waterworks were highly commended at the Global Water Awards 2005, by Global Water Intelligence, United Kingdom.

Asiamoney's Top Executives of the Year 2005

Hyflux CEO, President and Managing Director, Olivia Lum was accorded the Corporate Executive of the Year in Singapore at the Asiamoney Annual Awards 2005. As one of Asia Pacific's most dynamic executives, Ms Lum was recognised for her drive, astuteness and vision that made Hyflux outstanding.

Winner, Most Transparent Company Award 2005 and 2004

Hyflux won the Most Transparent Company Award for the services/utilities /agriculture sector at the Securities Investors Association Singapore (SIAS) Investors Choice Awards in 2005 and 2004.

The award recognised Hyflux for the timeliness, substantiality, clarity and transparency of its news releases as well as the frequency of its corporate results, the accessibility by media and the availability of segmental information.

Businessman of the Year 2004

Hyflux CEO, President and Managing Director, Olivia Lum was conferred Businessman of the Year at the Singapore Business Awards 2005 for her outstanding drive, vision and entrepreneurial achievement in building Hyflux Ltd into one of Asia's most dynamic and innovative water and fluid treatment companies boasting its own brand of membrane technology.

Euromoney's Asia Pacific Water of the Year 2003

The financing for the SingSpring desalination project was named the Asia Pacific Water Deal of the Year 2003 by Euromoney Project Finance Magazine. With a 20-year off-take contract with the Singapore PUB and a tenor of 18 years with four international banks, this award sets a new benchmark for Hyflux in terms of scope and complexity of execution in the growing market of privately-financed water projects.
